Re: Review Request  
023-17971-00024

Dear Ms. Potter:

On May 21, 2003, the Office of Air Quality (OAQ) received your review request for Donaldson Company, Inc., located at 3260 W. State Road 28, Frankfort, Indiana 46041.

Donaldson Company, Inc. was issued a Part 70 Operating Permit (T 023-8315-00024) on October 24, 2000. On July 23, 2003, IDEM, OAQ, received your letter which indicates your plan to remove one (1) boiler, constructed in 1986, rated at 10 million British thermal units per hour, and construct and operate eleven (11) air conditioning/heating units. The air conditioners are rated at 25 tons (0.3 million British thermal units per hour), each, and the heating units are rated at 0.25 million British thermal units per hour, each. The boiler to be removed and the eleven (11) air conditioning/heating units being added are insignificant activities pursuant to 326 IAC 2-7-1(21)(G)(i)(AA). Thus, this project consists of removing and constructing insignificant activities. Since the one (1) insignificant boiler is not mentioned in the permit and the eleven (11) air conditioning/heating units are not specifically regulated, there is no change to the permit.

This project will result in a net decrease in emissions. Therefore, there project will not change the source status pursuant to 326 IAC 2-2, PSD.

Pursuant to 326 IAC 2-7-1(K), a change in a source's insignificant or trivial activities or the addition of an insignificant activity or trivial activity shall not constitute a modification for purposes of 326 IAC 2-7-12, if the new activity or modified activity meets the definition of "insignificant activity" or "trivial activity," has all applicable requirements and associated monitoring in the current permit; and is not a modification under any provision of Title I of the CAA. Thus, this project does not require a source or permit modification. Therefore, IDEM, OAQ has determined that the source can construct and operate the insignificant activities consisting of the eleven (11) air conditioning/heating units.

If you have any questions on this matter, please contact CarrieAnn Paukowits, MES Co., Inc., at 165 Broadway, Amityville, New York 11701, or by telephone at 631-691-3395 ext. 18, or in Indiana at 1-800-451-6027 (ext 631-691-3395). Send a copy of all written correspondence to Duane Van Laningham at Indiana Department of Environmental Management (IDEM), Office of Air Quality, Permits Section, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana 46206-6015.

Sincerely,
